Summer Instruction

Suburban Learning Center offers individualized tutoring sessions for students in elementary, middle, and high school. Morning, afternoon, and early evening sessions are available during June, July, and August. Summer schedules are flexible and are designed to accommodate each student's availability.

Our services include:

- **Reading** – basic skills instruction and comprehension strategies
- **Math** – computation skills and problem solving techniques
- **Written language** – writing mechanics and writing process
- **Standardized test preparation** – NJASK, SSAT/ISEE/COOP, PSAT/SAT/ACT

We offer one-to-one tutoring with individualized objectives based on teacher and/or parent specifications. Curriculum-based diagnostic evaluations are administered during the initial session, as appropriate. Comprehensive learning evaluations are also available.

Tutors who work with elementary school students are certified learning consultants, special educators, and/or reading specialists who have been trained in multisensory techniques, including Orton-Gillingham methodology. Middle school and high school tutors are certified special educators and/or specialists in specific subject areas.

Please contact Loretta McCree at 973.761.1406 for additional information.
