PSAT, SAT, and ACT Preparation for Accommodated Students

Summer sessions available in preparation for fall test dates

Suburban Learning Center offers customized PSAT, SAT, and ACT preparation for students who will be taking these tests with accommodations. The student will meet one-on-one with an experienced instructor who will tailor the sessions to meet the student's score goals, schedule, and learning style.

Students will review academic skills, learn test-taking strategies, and gain test familiarity. A preparation plan will be developed for each student based on the analysis of prior standardized testing and the student's response to instruction. Students can choose to focus on reading/writing skills, mathematics development, or both. Specialized methods and materials will be used to develop the student's skills in:

- Reading comprehension
- Vocabulary
- Grammar and editing
- Essay writing
- Mathematical calculation and problem solving

SLC specializes in working with students with mild to moderate learning differences. Our services include diagnostic evaluations and remedial instruction.

Daytime, evening, and Saturday sessions are available throughout the summer months.

Please contact Loretta McCree at 973-761-1406 for additional information.
